MAYOR BLACK FACES ABOUT.

SWEARS IN LEADING CITIZENS TO PRESERVE PEACE.

Summons Bankers, Merchants, Professional and Business Men, Who Have Been Deputies -- Many Think Him Insincere but Accept the Issue -- A Citizen Protects Himself From the Strikers.

McKERSPORT, Pa., Sept. 7 .- Mayor Black has capitulated to the demands of the nonstrikers and to-day organized a new emergency police force. Every man opposed to the Mayor politically or who has been at all pronounced in his criticisms of his his afternoon and compelled to appear before his Honor to be sworn in as a special police officer They will have to be at e Central police station at 6:30 o'clock Monday morning to report for duty and will be assigned to service along Fourth Works and at Demmler, about the works I the American Tin Plate Company.

tube works is to start in several de partments on Monday and the strikers are ously engaged in making threats to inimidate the workers. The Mayor's latest move is brought about by the threat of eriff William McKinley to issue a proclamation and take possession of the city unless the Mayor does his duty. The reclamation is already printed and ready to post, but the Sheriff is holding off to see what the Mayor is going to do between

now and Monday.

Mayor Black's latest move is not believed to have been made in good faith. He has already sworn in a large posse composed of strikers. This action caused so much comment that was unfavorable that he has hanged his plan and has sworn in the iness men and says he will compel them to neglect their business and protect the city from the mobs which the Mayor does not believe to exist but which the business people are afraid of.

people are afraid of.

The National Tube Company has made every preparation to start its plant in this city on Monday morning. The butt and welders met last night and decided to return to work. At the same time the machinists and other tradeemen employed n the works met and reached the same lecision. The majority of the employees f the company have announced their desire to return to work and at the same time have denounced the strike as an unnecessary interference with their work. They say they are not on strike and know reason why they are out except that a rush started and they were carried along with the rush. The fact is that the tube workers have been working steadily for several years. They were making more money than they ever made before and they simply felt that they "had a strike comingt to them" and took the first opportunity to get it. The comparatively few real strikers in the lot are in desperate straits, trying to head off the stampede back to the

The growds about the Demmler tin plate The crowds about the Demmler tin plate in ills have grown so insulting to the deputy sheriffs there that Sheriff McKinley decided yesterday to issue a proclamation placing that end of the city under the charge of the Sheriff, warning all persons to refrain from gathering or loitering there, and to summon a sufficient number of deputies to enforce the order. If necessary he proposed to appeal to the Governor for troops and place the city under martial isw.

the notices were printed and taken to Demmiler to-day, but have not yet been posted, and Mayor Black will have a trial before the Sheriff proceeds to take charge

hefore the Sheriff proceeds to take charge in earnest. There is a great deal of ill-feeling between the Sheriff and the Mayor, as the latter has denounced the Sheriff over his signed statement for bringing deputies here. He classed the deputies as "exconvicts." The Sheriff says that the Mayor has not attempted to do his duty and that his police at Demmier are under orders to arrest the deputy sheriffs in case of any trouble arising between them and the hoodlums who gather along the railroad to insult them.

heodlums who gather along the railroad to insuit them.

Angered by these statements and the criticisms that have been made regarding his numerous proclamations, the Mayor has decided upon a different course. In order to show that the business people are unwilling to leave their places of business to serve in the posse conitatus he has summoned every business man in-the city, harkers, professional men, every member bankers, professional men, every member of the City Council, all the members of the Board of School Controllers, newspaper men and others. The list numbers several hundred and a large number have already appeared and taken oath as special officers on the city police force. Among the number are David Rhoades, cashier of the National Bank of McKeesport; Bernard Volk, cashier of the Citizens' National; Homer Stewart, cashier of the First National; George J. Falkenstein, paymaster of the American Sheet Steel Company; J. E. Denny O'Neil, John N. Dorsam, J. J. Bediell and S. F. Finley. Every one of those summoned is either opposed to the Mayor politically or has criticised him, and his posse comilatus is made up entirely of his enemies and critics. He has notified them all to appear at his physician's office and he sworn in and the oath is being administered to-night to a large number. Board of School Controllers, newspaper men and others. The list numbers several

Many, however, refuse to appear. They say the Mayor is simply doing this for spite and in order to sacrifice his enemies. All of them make the assertion that trouble is miniment, as the strikers are freely thaking threats as to what they intend to do in case the men summoned appear for duty.

kind of fellers what hides quick when there's any trouble. Them's the kind we wants. Directly opposite to this view is that of James Evans, President of the National lank of McKeesport. He said:

'It is the right move. It is time for the decent people of this city to take a hand and show to the world that law and order rule here the same as elsewhere. The past week or two has been enough to satisfy any one that the police affairs were being improperly administered. The majority of our citizens want to go to work and have been unable to secure protection at the hands of the city police. It is now time for the decent citizens and the business men to take hold. Every the business men to take hold. Every good citizen should volunteer to serve on the police force. I sent my son up as a volunteer this afternoon and he was sworn

fort society will do its duty we can soon set at rest this turbulent faction which causes so much trouble. I do not know why the Mayor is doing this but the business men of McKeesport should take up the gauntlet he has thrown down and show that they can preserve order if his police force will not.

that they can preserve order it his ponce torce will not."

This is the sentiment of a large number of the business men and they are going to the office to take the oath. Others are finding it convenient to refuse. The Mayor is accepting all the volunteers who appear before him. The only persons be refuses to take are strikers. He says the citizens have criticised his actions. he citizens have criticised his actions appointing strikers two weeks ago and is now going to discover if his critics

will be willing to give the protection they expect him to give returning workers.

Although the attempted assassination of President McKinley overshadowed the great steel strike to-day and withdrew jubic attention from it until the Mayor's tatest action revived interest in it, the day was not without its incidents. All nighting a crowd of boodhums lung about the mill shouting at the deputies on guard and hurling insults at them. Although the jobic were within hearing distance most of the time they did not interfere. Finally

Oscar Havekotte, who conducts a grocery store across the railroad track from the mill, got out of bed and requested the crowd to move from in front of his store as he could not sleep. He was replied to with a voiley of oaths and insults.

About 5 o'clook Havekotte arose and went downstairs and notified the crowd that they would have to leave. About fifty men started for the grocer. They were all armed with clubs, railroad ballast and iron. Havekotte backed to the porch in front of his store and drew his revolver, threatening to kill the first man who stepped on his premises. One of the crowd left threatening to kill the first man who stepped on his premises. One of the crowd left and in a few minutes returned with a police man whom he requested to arrest Havekotte for pointing firearms. Havekotte dared the officer to arrest him and went into his house. To-day an information was made against Havekotte charging him with carrying concealed weapons and pointing firearms. He will waive a hearing, and take the case into the County-Court.

During the day several little encounters three occasions the workers were com-pelled to draw revolvers and force their way through crowds trying to hold them up. The trouble is all being caused by men from the tube works and rolling mills and from Pittsburg. None of the Demmler tin plate men has been recog-

Demmiles and from Pittsburg. None of the Demmiler tin plate men has been recognized among the disorderly element.

The tin plate company continued to operate its mills to-day without friction and on Monday the entire plant will be in operation, with the exception of three mills undergoing repairs. Nearly all the and on Monday the entire plant will be in operation, with the exception of three mills undergoing repairs. Nearly all the men have announced their intention of going back to work. Strikers from this city are going to march to the mills on Monday morning and endeavor to take the men now at work out. The same marphers will also endeavor to prevent men from going to work in the tube works. The tube company foremen are notifying all the men in their several departments to report for work on Monday morning.

The employees of the Monongahela Steel Works have been ordered back to work on next Wednesday morning and a general resumption will be effected this week if the men can be induced to forget their fear of the strikers. The main difficulty seems to be that the non-strikers have no organization and it is difficult to convince them of their own strength. They have greatly overestimated the numbers of strikers.

SCHWAB WON'T SEE SHAFFER. Nothing in the Shape of Recognition of

the Amaigamated to Be Expected. The appeal of President Shaffer of the Amalgamated Association of Steel, Iron he officials of the United States Steel Corporation has been refused. From an authoritative source it was learned yes-terday that Mr. Schwab and the directors of the United States Steel Corporation, despite all reports to the contrary, will not recede from the determination they reached on Thursday to ignore the Amaigamated Association and to proceed to open the plants which the strikers have closed. Shaffer had his chance on Wednesday

Shaffer had his chance on Wednesday to end the strike upon terms which would have let both himself and his organization down easily and since he didn't take advantage of the opportunity, Mr. Schwab will now listen to no further proposals from mediators. So far as the steel corporation is concerned the Amalgamated Association is dead, and there will be no further recognition of it in any way.

One of the highest officials of the United States Steel Corporation said to a Sun reporter yesterday: "It is now a fight to a finish, and a fight in which indications point to the wiping out of existence of the Amalgamated Association."

Advices received yesterday by the offi-

point to the wiping out of existence of the Amaigamated Association.

Advices received yesterday by the officers of the trust were to the effect that there would be no difficulty in obtaining enough non-union men to start on Monday the operation of most of the plants which have been shutdown for the last two months.

Privature, Pa., Sept. 7.—President Shaffer of the Amaigamated Association was asked to-day if a report that a settlement of the steel strike was in prospect was true. It was not true, he said. Then he added:

"The proposition submitted to our board is in such shape that we cannot accept it. An erroneous opinion exists in some quarters that the strike is lost and that the Amaigamated Association is defeated. This is not so. We have not yet started the contest in earnest. I admit that in every or-

test in earnest. I admit that in every organization there are weak members and
that a certain percentage of desertions
occur. We counted on this and are prepared for it. During the heated term these
weak brethren remained firm because
they needed the rest that the suspension
of the mills gave them.

"The strike will go on and even if our fund
for the payment of benefits becomes exhausted, our men will continue steadfast."

The Bay View strikers met this forenoon and after a long discussion adjourned without putting the question of a return to work to a vote. the question of a return to work to a vote. The adjournment is until 2 o'clock on Sunday afternoon, and was caused by a telegram from President Shaffer, saying that the Executive Board was still in session at Pittsburg considering measures relative to the strike. It is practically certain that the men will end the strike on Sunday.

BOSTON, Sept. 7.—Judge Grant, of the Probate Court, has appointed Milton Reed, lawyer of Fall River, guardian for Robert Howard, the well-known labor leader and politician, who has been an inmate of the politician, who has been an inmate of the McLean asylum at Waverly since Aug. 3. Howard is the owner of five pieces of property in this city, assessed for \$84,100 He is not assessed for any personal estate, but he is reputed to own stocks and bonds in Fall River corporations valued at \$25,000. He is also the owner of property on the main thoroughfare of Fall River. In addition to these holdings, Mr. Howard is the owner of valuable building lots which bring his estate up close to \$150,000. There are some incumbrances.

Miners to Demand Union Cards,

SHAMORIN, Pa., Sept. 7.—Eighteen United Mine Workers' locals selected a committee last night to stand at the slopes and shafte next Monday to demand union cards from the mine employees. The Reading Company agreed recently not to oppose the move-ment. The Pennsylvania Railroad did not permit the inspection three months ago. It is problematical whether they will continue to fight the card inspection.

Asked to Send Troops to Guard Miners FRANKFORT, Ky., Sept. 7.—Gov. Beckham has been requested to send troops to Madisonville to suppress the rioting and violence. The Governor is making an investigation of the conditions before acting on the request. The mine operators have filed a petition with the Governor reciting the state of

NORTHFIELD, N. J. Sept. 7—Record-breaking golf still continues at the links of the Aflantic City Country Club, where new records seem to be made every day. All the men are playing better, C. B. Cory getting a 7s and Travis a 7s, but the olimax was cupped when young Walter Egan, the Chicago wonder, finished to-day with a new record of 7s. This is the mest marvellous golf and it has once more sent the Egan stock soaring high in the heavens. The boy has played most astounding golf during the past few days and, instead of peging out, he actually seems to be getting better each day. His record is as follows:

J., Sept. 7 .- James Freeman Brown, senior member of the dry goods firm of the James Freeman Brown Company, 73 Franklin street, New York, was stricken with heart failure, while bathwas stricken with heart failure, while bathing at the Monmouth Beach Club house this afternoon. He succeeded in reaching the shore before he died, failing into the arms of the bathing master. He entered the surf against the wishes of his wife who knew how weak his heart was.

Mr. Brown was 38 years old and a native of Brookline, Mass. He was a member of the Calumet and Merchants' clubs of New York.

ATTENTION, MEN. This picture is a sphygmograph tracing of a nervous heart caused by Mental Strain, Abuse, Sexual Excesses, Varicoccle, and carelessness in the selection of a first-class specialist.

If you are troubled the same a care of the selection of the same of the selection of the selectio If you are troubled the same as above call on me and I will prove to you that I can relieve you of your trouble, build up your wasted system and make you sound and robust again. I will examine you free and in strictest privacy.

Metal Workers' Union Demanded Right

The metal workers employed in the ship-yard of the John N. Robins Company. Erie Basin, have struck because the firm refused to consent to the following agree-ment with the Metal Trade Conference:

It is hereby agreed between the firm of—and Metal Trade Conference of New York and vicinity to employ none but men affiliated with that board or agreeable to them.

It is further agreed upon written proof over seal of the delinquency of members of aforesaid organization, the firm of—will agree to dispense with their services. The firm declared they would go out of

business rather than submit to the demand. amediately all the mechanics belonging to the International Union, which is affilto the International Union, which is affiliated with the metal trades, quit work in obedience to the command of the walking delegates. It is said that not one of the strikers left work willingly.

"We would never sign such an agreement," said a member of the firm. "We have the New York and the Vigilancia in the yard. We can send the New York back and plug up the Vigilancia so as to take her out of the dock where she had been placed to have a new bottom. Most of the craft in the yard are nearly finished, and none of the firms we do business with will press us.

the firms we do business with will press us."

There was a similar fight nearly twelve years ago when the International Union of Bollermakers would allow no young man to work unless he had learned his trade in

consideration at the meeting of the general anti-Tammany conference when it meets on Monday evening. Here are the names of the men who will be acceptable to the organization for the office of Mayor:

ABRAHAM R. LAWBENCE CHARLES & PATROBILD. ABRAHAM R. LAWRENCE CHARLES N. PATE JOHN D. CRIMMINS. CHARLES W. DA B. ELLERY ANDERSON, RARIUS N. RANS J. HAMPTON ROBB. CHARLES V. POT J. P. PULTON CUTTING. JOSEPH F. DALY JACOB A. CANTOR.

Justice Lawrence is now on the Supreme Court bench. He is not to be renominated by Tammany this fall, and it is the thought of the members of the organization that he would make a good candidate. Mr. Cutting is the chairman of the City Committee and the Committee of 107 of the Citizens' Union, and there has been some talk about his being the candidate from that quarter. He does not belong to the Sheehan organization, nor do Justice Lawrence, Mr. Fairshild, Mr. B. Justice Lawrence is now on the Supreme han organization, nor do Justice Lawrence, Mr. Fairchild, Mr. Robb or Mr. Fornes, William Hepburn Russell, chairman of the Conference Committee, said that this list was interded to be suggestive, not exclu-sive, and that the organization would be content to take any good man who was agreeable to all the allies. The organization does insist, however, that the candidate ought to be a Democrat because New York is a Democratic city.
